

Visit to Shanghai Maritime University

Tomoji Takamasa, Dean of the Graduate School of Marine Science and Technology, and 7 other university officials visited China's Shanghai Maritime University on 18th October, 2011. Our university entered into an international exchange agreement with Shanghai Ocean University in 1995 and has since been cultivating academic exchange.

During this visit we presented our university's program that was adopted in FY2010 by the Ministry of Education, Culture, Sports, Science and Technology as part of its Program for Advanced Professional Training through Japan-China-Korea Interuniversity Exchanges to Shanghai Maritime University officials and we exchanged opinions about academic exchange between the two universities focusing on the reception of exchange students at our university.

We hope that this visit will lead to further expansion and development of academic exchange between the two universities.
