

International Education Forum on Marine Environment and Energy

An International Education Forum on Marine Environment and Energy (hereafter referred to as the 'Forum') was held on 3rd March, 2012. This Forum was held with the aim of cultivating academic exchange with all the universities in the consortium (a total of 8 universities in China and Korea) as part of the university's program (hereafter referred to as the Japan-China-Korea Program) adopted in FY2010 by the Ministry of Education, Culture, Sports, Science and Technology's Program for Advanced Professional Training through Japan-China-Korea Interuniversity Exchanges).

The Forum began with an opening greeting from President Matsuyama of Tokyo University of Marine Science and Technology. There was also an introduction to the Japan-China-Korea Program from Mr Takamasa, Dean of the Graduate School of Marine Science and Technology.

Opening greeting from President Matsuyama

Introduction to the Japan-China-Korea Program from Mr Takamasa, Dean of the Graduate School of Marine Science and Technology

Following that, there were speeches from each Chinese and Korean consortium university with introductions of the universities and their hopes for the Japan-China-Korea Program.

Finally, there were speeches from two students representing exchange students at Tokyo University of Marine Science and Technology on the Japan-China-Korea Program.

Ms Yu
(originally from Zhejiang Ocean University, China)

Mr Cho
(originally from Pukyong National University, Korea)

After all the speeches, Vice-President Kuse of the Tokyo University of Marine Science and Technology gave the closing address to end the Forum. We hope that this event will lead to even further expansion and development of academic exchange on the Japan-China-Korea Program.
